NOTES

This table presents data for countries included in Parts I and II of the DAC list of aid recipients (OECD-DAC 2007a). The denominator conventionally used when comparing official development assistance and total debt service to the size of the economy is GNI, not GDP (see *Definitions of statistical terms*). GDP is used here, however, to allow comparability throughout the table. With few exceptions the denominators produce similar results.

- a.** ODA receipts are total net ODA flows from DAC countries as well as Taiwan Province of China, Czech Republic, Hungary, Iceland, Israel, Republic of Korea, Kuwait, Poland, Saudi Arabia, Slovakia, Turkey, United Arab Emirates and other small donors, including Estonia, Latvia, Lithuania

and Slovenia, and concessional lending from multilateral organizations. A negative value indicates that repayments of ODA loans exceed the amount of ODA received.

- b.** A negative value indicates that the capital flowing out of the country exceeds that flowing in.
- c.** Other private flows combine non-debt-creating portfolio equity investment flows, portfolio debt flows and bank and trade-related lending.
- d.** Data refer to 2004.
- e.** Data refer to 2003.
- f.** Mexico and Turkey were the only OECD member states to receive ODA from these sources in 2005.
- g.** World total includes US\$ 14,614 million not allocated either to individual countries or to specific regions.
